

FARM ENVIRONMENT PLAN WEBINAR SERIES

NZ
LANDCARE
TRUST

FARMIQ[®]

NZLT and FarmIQ have teamed up to provide three helpful webinars for those thinking of undertaking a Farm Environment Plan.

Come along to any of the three webinars listed below and join us for a half hour of information and an opportunity to ask questions in a safe environment.

1

Tuesday 26 May @ 7pm.

‘WHAT IS AN FEP?’

Nardene Berry (NZ Landcare Trust) and Alison Worth (FarmIQ)

Learn about FEPs, what they mean for your farm business, how to get started easily and where to find resources and advice to set you up for FEP success.

2

Tuesday 9th June @ 7pm.

‘FEP MAPPING’.

Alastair Cole (NZ Landcare Trust) & Alison Worth (FarmIQ)

Find out how and what to include in your farm map for your FEP. This interactive session will show you how easy it is to use the FarmIQ digital map to identify your farm’s environmental features such as waterways, riparian planting and risk areas. We’ll also discuss the value and benefits of a good map and provide some handy tips to get you started.

3

Tuesday 23rd June @ 7pm.

‘PLANNING AND IMPLEMENTING YOUR FEP GOALS AND OBJECTIVES’.

Nathan Burkepile (NZ Landcare Trust) & Alison Worth (FarmIQ).

We all know that having a plan is great, but actually putting it in to practice and reporting on outcomes can be challenging, especially if your FEP is a local policy requirement. In this session, Alison and Nathan will show you how to set your FEP goals and objectives effectively so you and other key stakeholders can monitor and measure progress easily.
